EDUCATION

Northeastern University, Boston, MA

Khoury College of Computer Sciences

Candidate for a Master of Science in Computer Science (MSCS), GPA: 3.94/4.0

Related courses: Programming Design Paradigm, Database Management, Algorithm, Web Development, Scalable Distributed System

Sept 2023 – Present

Expected graduation: **May 2025**

PES University, Bengaluru, India

Bachelor of Technology (B.Tech) in Computer Science Engineering

Related courses: Data Structures, Algorithm Design, Operating Systems, Data Science, Cloud computing, Network Security, Blockchain

June 2023

TECHNICAL KNOWLEDGE

Languages: Java, Python, Javascript, Typescript, React, Redux, SQL, C++

Databases/Cloud: MySQL, PostgreSQL, MongoDB (NoSQL), DynamoDB, GraphQL, AWS, Google Cloud, Microsoft Azure

Technologies: Git, Spring, Docker, REST API, Kafka, Node, Angular, Kubernetes, Redis, JUnit, Cypress

Skills: Object Oriented Programming, Backend, Frontend, Full-Stack, Unit testing, Automated Tests, Scrum, Jira, Kanban, Agile

WORK EXPERIENCE

Quickbase

Software Engineer Co-op

Boston, USA

July 2024 – Present

- Built and deployed a custom image rotation plugin, used by **25,000+** companies, **enhancing productivity** for end users through **React** and the yet-another-react-lightbox library
- Optimised the useFetch hook, boosting **API flexibility** and reusability for cross-component functionality
- Engineered efficient **Redux** store slices, enabling scalable state management, and collaborated using Kanban and Scrum

PricewaterhouseCoopers (PwC)

Technology Consulting Intern

Bengaluru, India

Jan 2023 – July 2023

- Designed** end-to-end user interaction flows for PepsiCo's chatbot, Chester, **improving user satisfaction** by 50%, using OneReach's pre-built templates and custom **JavaScript** templates

Bharat Electronics Limited

Data Analyst Intern

Bengaluru, India

June 2022 – July 2022

- Implemented **SARIMA** models to **predictively scale server resources** for the eChhawni portal used by 2 million+ citizens, **ensuring 99% uptime** during traffic fluctuations by analysing web traffic data

Hitech Services

Software Development Intern

Bengaluru, India

Jan 2022 – May 2022

- Introduced **Kafka** message queues for fair lead distribution, by randomizing daily phone number allocation to tele-callers
- Developed district-based lead targeting via **API** integration, **improving tele-caller outreach** accuracy by mapping vehicle registration numbers to districts
- Enhanced lead retrieval speeds by 40% with **Redis caching** in **Spring Boot**, optimizing system performance

PROJECTS

Graphical Image Manipulator and Processor | *Java, Java Swing*

- Created an image processing application using **MVC architecture** enabling users to perform operations like blur, sharpen, visualise RGB components, compress, colour correct, etc resulting in enhanced image quality and user experience. Design Patterns implemented - Factory, Command, Builder

Microservice Communication With RabbitMQ | *Flask, Docker*

- Compiled and deployed a **microservice architecture** where multiple components communicate with each other using **RabbitMQ** for a ride-sharing app

Stock Market Trading Management System | *Java, MySQL, HTML, CSS*

- Developed a robust trading system with a user-friendly UI for users creating a seamless database integration for buy/sell orders

INTERESTS / ACTIVITIES

- Awarded** Prof. M.R. Doreswamy Scholarship for being in the **top 20%** of the university
- Recognised with multiple **Distinction Awards** for academic excellence in 2020, 2021, 2022, 2023
- Volunteered** as a Mathematics/English **teacher** at a government school, teaching grades 4-8
- Completed courses in **Design Thinking** and **Customer Development** at the Centre for Innovation and Entrepreneurship
- Active participant in the fashion club at PES, winning 4 intercollegiate fashion shows
